

CHETHANA GURUSINGHE

FULL-STACK DEVELOPER

TECH STACK

Java	Java Script
SpringBoot	React
MySql	Python
Html	CSS
Figma	PHP

PROFESSIONAL CERTIFICATES

CERTIFICATE IN PYTHON FOR BEGINNERS

- University of Moratuwa (Open Learning Platform) - *Completed in 2025*
- Link to the certificate - <https://acesse.one/7qZIY>

Certificate in Web Designing for Beginners

- University of Moratuwa (Open Learning Platform) - *Completed in 2025*
- Link to the certificate - <https://l1nk.dev/bH36N>

Certificate in Frontend Development - ongoing

- University of Moratuwa (Open Learning Platform)
-

PROJECTS

Number Guessing Game

- <https://github.com/ChethanaGurusinghe/number-guessing- game.git>
- Technologies Used – JavaScript
- Hand On knowledge – Developed an interactive web-based number guessing game using HTML, CSS, and JavaScript.
- Demonstrated understanding of DOM manipulation, event handling, and basic game logic

ABOUT ME

Enthusiastic and self-motivated Full Stack Developer with a strong foundation in both front-end and back-end technologies.

Passionate about creating responsive, user-friendly web applications using HTML, CSS, JavaScript, React and Java/Spring Boot. Eager to learn new tools and frameworks while contributing to real-world software projects in a collaborative environment..

EDUCATION

Student @ iCET

G.C.E A/L Exam 2024

G.C.E O/L Exam 2021

SKILLS

Time management

Problem Solving

Effective Communication

Team Collaboration

Chat App

- <https://github.com/ChethanaGurusinghe/Chat-App.git>
- Technologies Used – Java
- Hand On knowledge - Developed a multi-client chat application using Java and Swing for the user interface. Implemented socket programming to enable real-time message exchange between clients through a server.
- Designed the system using Object- Oriented Programming (OOP) principles and ensured smooth message broadcasting across multiple chat windows.

Bulb Challenge

- <https://github.com/ChethanaGurusinghe/Bulb-challenge.git>
- Technologies Used – HTML, CSS, JavaScript
- Hand On knowledge - Created an interactive web project that simulates turning a light bulb on and off using buttons and JavaScript functions. Demonstrated understanding of DOM manipulation, event handling, and basic front-end design principles.

ThogaKade Management System

- <https://github.com/ChethanaGurusinghe/Thoga-Kade-Management-System.git>
- Technologies Used – Java
- Hand On knowledge - Developed a desktop-based management system to handle products, customers, and orders efficiently. Implemented core features such as adding, updating, searching, and deleting records using Java and Object-Oriented Programming concepts. Designed the user interface with Java Swing and integrated basic data validation and reporting functionalities.

Hotel Reservation System

- <https://github.com/ChethanaGurusinghe/Hotel-Reservation-System.git>
- Technologies Used – Java
- Hand On knowledge - Developed a desktop-based application to manage hotel room bookings, customer information, and reservations efficiently. Implemented features such as adding, updating, searching, and deleting bookings, and ensured smooth room availability management.

Library Book Management System

- <https://github.com/ChethanaGurusinghe/Library-Book-Borrowing-System.git>
- Technologies Used – Java , SpringBoot (Ongoing)

Figma Design – StyleAura(For clothing brand)

- <https://www.figma.com/design/0fZVwPQy9TFCbEeh017x5k/StyleAura?node-id=0-1&t=recNZMTSLgissT7u-1>

Figma Design – CaféBliss(For coffee shop)

- <https://www.figma.com/design/0fZVwPQy9TFCbEeh017x5k/StyleAura?node-id=0-1&t=recNZMTSLgissT7u-1>

Figma Design – SalonGlimmer(For salon) – ongoing

<https://www.figma.com/design/0alzg1Bm6G93O70vTJT3lq/Salon--Glimmer?node-id=0-1&t=6jju8DI5rL6s943i-1>

ThogaKade CRUD

- <https://github.com/ChethanaGurusinghe/thoga-kade-crud.git>
- Hand On knowledge - Developed a Java-based desktop application to manage products, customers, and orders using CRUD operations. Implemented features to add, view, update, and delete records efficiently.

Burger Ordering System

- <https://github.com/ChethanaGurusinghe/Burger-Ordering-System.git>
